**Subject:** Question on MW-53D2 this time  
**Attachments:** VPB and Well Map\_011316.pdf

Thanks again Steve. Hopefully this will be my last data question to you for a while. The attached map from the Navy shows MW-53D2 toward the northwest of the OU-2 plume. Is this a Navy well, and do you know if it has it been sampled recently? I didn't see it as listed as part of the sampling program, and I was wondering if the Navy (and/or NG) are planning to sample it in the near future.

Thanks,  
Carol

**Subject:** Two questions when you have the chance

Hi Guys. I hope you are doing well. I have 2 questions, when you have the chance:

Stein: (1) Do you know where I can locate recent groundwater data for MW-63D2 (just southwest of S Bway, and to the west of the NG property), and for MW-66D1/MW-66D2 (just east of MW-63D2)?

Scharf: Carol, these wells were put in by OXY under the EPA NPL UAO OU3 Bio-sparg system (lots of acronyms for you!) . I've enclosed the latest quarterly report from the EPA Hooker RUCO OU3 project. Please see Mike Negrelli for more details on these wells.

Stein: (2) If you are in the area to do fieldwork in the near future, would it be possible for me to join you for the field visit.

Scharf: Ok, we'll keep you posted on upcoming fieldwork events we plan to attend, and like Motel 6, we'll leave the light on for you.

Thanks,  
Steve

Steven M. Scharf, P.E.
